# Perspektiv

## Finding a Better Way

### Principal Sustainability Consultant

## PROFILE

Recognized as a leader in sustainability, environment and engineering within the infrastructure and building development industry in Australia and Asia. Thiru or TJ is well networked within the professional, industrial, and environmental groups in both Australia and Asia. He embraces the challenge of optimizing multi-disciplinary project outcomes that are sustainable as well as meet the required commercial, business and social aspirations of all Stakeholders. His firm belief is that all of us have a collective responsibility to society, to our Planet and more importantly, to one another.

## SIGNIFICANT ROLES

### PRINCIPAL SUSTAINABILITY CONSULTANT **Perspektiv** Sydney, (NSW)

#### Main Responsibilities:

- Providing expertise and advice for a range of large infrastructure companies, projects and tenders
- Developing and implementing value adding sustainability strategies for targeted contracts and tenders
- Sustainability Management Audit and Review for IS Rating Man-3 and Man-4 Credits
- Resource use tracking and monitoring
- Resource use modelling using the Perspektiv in-house LCA Tool
- Product Stewardship advisory

### SUSTAINABILITY LEAD **Norman Disney & Young** Sydney, (NSW)

**Main Responsibilities:** Responsible for enhancing NDY's sustainability presence in the Sydney/NSW market. Overall responsibility for the NSW team's performance and reported directly to NDY's Global Sustainability Group Leader. Reviewing and managing resource use modelling (Energy, water & waste) by team members.

### SUSTAINABILITY MANAGER **John Holland** Sydney, (NSW)

**Main Responsibilities:** Responsible for all sustainability outcomes on the Sydney Metro North-west - Operations, Trains and Systems project for Northwest Rapid Transit (NRT). Provided specialist sustainability advice and input to project teams across the project lifecycle as well as ensured that sustainability obligations were integrated across all project delivery functions.

### SUSTAINABILITY MANAGER **CPB Samsung John Holland JV** Sydney, (NSW)

**Main Responsibilities:** : Responsible for all sustainability outcomes on the WestConnex M4 East project. Delivered and coordinated an ISCA 'Leading' rating for Design, above the contract's requirements of 'Excellent', while ensuring that there was no additional cost for the uplift in rating.

### SUSTAINABILITY DIRECTOR **Lendlease Development** Malaysia

**Main Responsibilities:** Led the design, development, and implementation of sustainability strategies (energy, water, materials, waste, social, governance, etc.) for the nation defining TRX Lifestyle Quarter Project. Responsible for the leadership and guidance of the project team on all matters concerning sustainability and oversaw the embedment of urban regeneration principles into the precinct through the development of long-term, holistic, and broad-based strategies that are aligned with the regional and group sustainability targets and objectives.
