## SUSTAINABILITY CONSULTANT Perspektiv Perth (WA)

### Main Responsibilities:

- Apply the principles of sustainable development to drive organisational and business excellence on behalf of Perspektiv and its clients
- Be an agent for positive change and help humanity achieve the United Nation's Sustainable Development Goals
- Deliver sustainability advice and products within allocated budgets and time frames
- Ensure sustainability advice and products are high quality and fit for purpose
- Oversee day to day management of sustainability frameworks on behalf of organisations and projects, ensuring suitable collaboration and integration
- Produce technical sustainability deliverables eg.; Climate Change Risk Assessments, Sustainability Data / Reports
- Engage stakeholders and increase their awareness of relevant sustainability issues to empower others
- Assist clients to achieve sustainable outcomes in the design and construction of state infrastructure projects using ISC rating scheme

## CLIMATE CHANGE & DISASTER RISK REDUCTION RESEARCHER

UN-Habitat, Laos Vientiane, (Laos)

### Main Responsibilities:

Tierney undertook both qualitative and quantitative research in Laos into the effectiveness of post-disaster recovery programs (including via stakeholder engagement) to determine current and future vulnerabilities and implement improvements.

## PROJECT MANAGEMENT INTERN United Nations- Human Settlements Office Vientiane, (Laos)

### Main Responsibilities:

- Implementing large-scale multi-phase projects aligned with the sustainable development goals and legal and regulatory structures, while balancing needs and requirements of national and international stakeholders.
- Evaluating goal WASH projects undertaken in partnership with the Stockholm International Water Institute (SIWI) and the Nordic Climate Fund (NCF).
- Drafting reports and giving presentations on the progress of projects as well as gaps, needs and opportunities in the context of the region. These were usually received by international donor organisations (SIWI, NCF, Adaptation Fund), UN-Habitat chief technical advisors, regional advisors, government officials and consultants.
- Drafting environmental impact assessments and project infrastructure plans in collaboration with national and international climate change, GIS and engineering consultants. - Other project documents including agreements of cooperation, concept papers, procurement documents, budgets and terms of reference.
